Available finishes: Grey, Beech, Maple, Pear, Wengue and Silver and edged with 2 mm. PVC edges all around. Optional plastic tray for cable management. **K3: Panel end frame** made of 25 mm melamine panels in Grey, Beech, Maple, Pear, Wengue or Silver with front and back edge in 2 mm; rest of edges in 0.8 mm PVC. **Desk Mounted Screens** made of 25 mm melamine panels. Available finishes: Grey, Beech, Maple, Pear, Wengue and Silver and edged with 2 mm edges on top and sides and 0.8 on bottom edge; profiled with aluminium frames on which to hang PVC storage accessories in Silver, Blue, Green, Orange or Dark Grey. **Complements**, such as *rectangular and bow fronted wings, executive elements, angles and semicircular tops* made of 25 mm melamine panels and available in the standard finishes, as well as silver. They are linked to the main top by means of metal plates. 60 x 35 x 2 mm steel metal frames with an inner support and 1.5 and 2 mm. metal plates. All metal components are manufactured under UNE and DIN standards; finished in Silver Epoxy paint (RAL 9006). **Boardroom Table Tops** made of 25 mm melamine panels (stratified finish version available upon request). Available finishes: Grey, Beech, Maple, Pear and Wengue and edged with 0.8 and 2 mm. edges. Steel foot, with a Ø 605 base and Ø 110 mm pole leg. **Straight Free-Standing Screens** can be combined in height and width: (height: 101,140 and 178; width: 60, 80, 100 and 120), with a total thickness of 28 mm. These screens consist of various panels in different materials that are mounted on an aluminium frame finished in Silver Epoxy paint (RAL 9006). The different materials used for these panels are: 25 mm melamine boards in Grey, Beech, Maple, Pear or Wengue; upholstered panels in Series 1 and 4 fabrics only; 4 mm thick clear or translucent Methacrylate panels. The same screen can be finished in one or different materials and the aluminium rails allow for storage accessories available in silver, blue, green, orange or grey; an overhead bookcase, metal shelf or a light kit. **Curved Free-Standing Screens** are available in three heights: 101, 140, 178 and in 45° and 90° angle

degrees. These screens consist of various panels in different materials that are mounted on an aluminium frame finished in Silver Epoxy paint (RAL 9006). Panels are 24 mm thick and finished in Grey, Silver, Beech, Maple, Pear or Wengue stratified. The same screen can be finished in one or different materials, except for the Methacrylate, that consists of a single piece.
