ADJUSTABLE HEIGHT FRAME

Metal **columns with 2 beams** that are lifted with **one electric engine** of 32V DC - 2,5A.

The outer column is of 2 mm thick steel of 70 x 70 mm. The inner column is of 2 mm thick steel of 65 x 65 mm.

Total load for the table is **100 Kg**. Motion speed of 25 mm/s.

Minimum height of the desk is 715 mm and maximum height is 1175 mm.

The electric control box with sockets is in the middle under the top.

Columns are synchronized thanks to an **horizontal axis**.

Standby electricity consumption is <0.1W.

Input voltage: 100 - 230 V

Under the top there is a telescopic **H-shape structure** that consist of two rectangular steel tube of 40x20 with 2 mm thickness and 30x14 mm with 1,5 mm thickness.

"L" shape support plates of 3 mm thick are welded to columns.

Base: 3 mm metal sheet base fixed to the column with screws (M8x20).

Levelling polypropylene glides with 8 mm metric thread.

Available finishes: silver (RAL 9006) or white (RAL 9010).

MANUFACTURING PROCESS

For fixed frame only: column is welded to its capital with **MIG system**:

- a) 1 mm spread copper wire with a bath of lacquer to make a fine explosion.
- b) Corgon gas 15 (85% oxygen y 15% Corgon).

For painting process is used a painting tunnel:

- ① Degreasing and transformation treatment (zirconium manometric inorganic transformation coat): frames are dipped with osmosed water and then dried. Frames are prepared to be painted with an optimum bond and with a corrosion protection coating. For this procedure, baths are filled using reversed waterfall. An authorized operator is in charge of sewage sludge.
- ② The drying: frames go inside a humidity oven during 11 minutes with a temperature of 110°C.
- ③ Frames have to be cold before painting to have a uniform layer of paint. Frames come inside automatic cabins with spouts that spread the paint. When frames come outside the cabin some retouches are done to make sure that all the corners are painted.
- ④ Polymerized oven: paint is melted in 200°C during 20 minutes to ensure a perfect bond and a fine coating finish.
